# Index to volume 28

## Author index*

**Abstracts for the APIC 27th Annual Educational Conference and International Meeting are located at www.mosby.com/ajic.**
**Abstracts for the 4th Decennial International Conference on Nosocomial and Healthcare-Associated Infections are located in the February issue.**

A

Acosta-Gío E (*see* Maupomé et al). 2000;28:21-4
Ali Y (*see* Hammond et al). 2000;28:340-6
Alvarado CJ, Reichelderfer M. APIC guideline for infection prevention and control in flexible endoscopy. 2000;28:138-55 (Special comm.)
Anastasi JK, Capili B. HIV and diarrhea in the era of HAART: 1998 New York State hospitalizations. 2000;28:262-6
APIC Guidelines Committees 1997, 1998, and 1999 (*see* Bartley et al). 2000;28:156-69 (Special comm.) APIC Home Care Membership Section, Embry FC, Chinnes LF. Draft definitions for surveillance of infections in home health care. 2000;28:449-53 (Special comm.)
Armstrong D (*see* Rogers et al). 2000;28:378-80 (Brief rep.)
Ashline V (*see* Kaye et al). 2000;28:197-201 (Practice forum)
Association for Professionals in Infection Control and Epidemiology, Inc. (*see* Nguyên et al). 2000;28:392-400
Ayers LW (*see* Cordero et al). 2000;28:286-90, 2000;28:333-9

B

Baker R (*see* Beltrami et al). 2000;28:282-5
Baltch AL, Smith RP, Franke MA, Ritz WJ, Michelsen P, Bopp LH, Singh JK. Microbicida l activity of MDI-P against *Candida albicans, Staphylococcus aureus, Pseudomonas aeruginosa,* and *Legionella pneumophila*. 2000;28:251-7
Banerjee SN (*see* Beltrami et al). 2000;28:282-5
Banerjee SN (*see* Manangan et al). 2000;28:222-7
Barnard B (*see* Garcia, Barnard). 2000;28:387 (Letter reply)
Barnard B (*see* Garcia et al). 2000;28:30-43 (Special article)
Bartley JM, 1997, 1998, and 1999 APIC Guidelines Committees. APIC State-of-the-Art Report: The role of infection control during construction in health care facilities. 2000;28:156-69 (Special comm.)
Baruch N (*see* Fuss et al). 2000;28:133-7
Bath SK, Singleton JA, Strikas RA, Stevenson JM, McDonald LL, Williams WW. Performance of US hospitals on recommended screening and immunization practices for pregnant and postpartum women. 2000;28:327-32
Bednarz P (*see* Noskin et al). 2000;28:311-13 (Brief rep.)
Belkin NL. Managing waste via source reduction. 2000;28:324-5 (Letter)
Bell-Dixon C (*see* Flournoy et al). 2000;28:244-50
Bell-Dixon C (*see* Smith et al). 2000;28:8-13
Beltrami EM, Singer DA, Fish L, Manning K, Young S, Banerjee SN, Baker R, Jarvis WR. Risk factors for acquisition of vancomycin-resistant enterococci among patients on a renal ward during a community hospital outbreak. 2000;28:282-5
Berg BW (*see* Bures et al). 2000;28:465-71 (Practice forum)
Bernacki E (*see* Gershon et al). 2000;28:211-21
Blech MF (*see* Vassal et al). 2000;28:347-51
Blumstein S, Zeller J, Sharbaugh B. APIC commentary on "Healthcare Waste Management: A Template for Action." 2000;28:e1.
Bopp LH (*see* Baltch et al). 2000;28:251-7
Borges-Yáñez SA (*see* Maupomé et al). 2000;28:21-4
Branchini MLM (*see* Tresoldi et al). 2000;28:258-61
Brémont F (*see* Vassal et al). 2000;28:347-51
Brodine SK (*see* Castillo et al). 2000;28:239-43
Bryan J (*see* Peters et al). 2000;28:123-9
Buchman TL (*see* McCormick et al). 2000;28:302-10
Bures S, Fishbain JT, Uyehara CFT, Parker JM, Berg BW. Computer keyboards and faucet handles as reservoirs of nosocomial pathogens in the intensive care unit. 2000;28:465-71 (Practice forum)
Burns JL, Hoiby N, Speert DP, Weber D (*see* Saiman et al). 2000;28:381-5 (Practice forum)
Butler RC (*see* Zafar, Butler). 2000;28:51-3 (Brief rep.)

C

Caelli M. (*see* McLaws et al). 2000;28:401-5
Capili B (*see* Anastasi, Capili). 2000;28:262-6
Castillo EM, Rickman LS, Brodine SK, Ledbetter EK, Kelly C. *Streptococcus pneumoniae:* bacteremia in an era of penicillin resistance. 2000;28:239-43
Cazes C (*see* Sinkowitz-Cochran et al) 2000;28:325-6. Correction 2000;28:388 (Letter)
Cesario T (*see* Lee et al). 2000;28:269-72 (Brief rep.)
Chamouni P (*see* Merle et al). 2000;28:109-15
Chang HS (*see* Kim et al). 2000;28:454-8 (Global perspectives)
Chang KH (*see* Kim et al). 2000;28:454-8 (Global perspectives)
Cheng Y-F (*see* Sheen-Chen et al). 2000;28:298-301
Chen W-J (*see* Sheen-Chen et al). 2000;28:298-301
Chinnes LF (*see* APIC Home Care Membership Section et al). 2000;28:449-53 (Special communication)
Chinn RY (*see* Sinkowitz-Cochran et al). 2000;28:325-6. Correction 2000;28:388 (Letter)
Choe KW (*see* Kim et al). 2000;28:454-8 (Global perspectives)
Chou F-F (*see* Sheen-Chen et al). 2000;28:298-301
Cohn SM (*see* Namias et al). 2000;28:387-8 (Letter)
Cole M (*see* Peters et al). 2000;28:123-9
Coley B (*see* Cordero et al). 2000;28:333-9
Cooper J (*see* Kaye et al). 2000;28:197-201 (Practice forum)
Cordero L, Sananes M, Ayers LW. Failure of systemic antibiotics to eradicate gram-negative bacilli from the airway of mechanically ventilated very low–birth-weight infants. 2000;28:286-90
Cordero L, Sananes M, Coley B, Hogan M, Gelman M, Ayers LW. Ventilator-associated pneumonia in very low–birth-weight infants at the time of nosocomial bloodstream infection and during airway colonization with *Pseudomonas aeruginosa.* 2000;28:333-9
Cunha BA (*see* Minnaganti, Cunha). 2000;28:376-7 (Clinical case study)
Cunha BA, Theodoris AC, Yannelli B. *Enterobacter cloacae* graft infection/bacteremia in a hemodialysis patient. 2000;28:181-3 (Clinical case study)
Czernichow P (*see* Merle et al). 2000;28:109-15

D

Dalphin ML (*see* Vassal et al). 2000;28:347-51
Daschner FD. Environmental protection in hospital infection control. 2000;28:386-7 (Letter)
D'Athis P (*see* Vassal et al). 2000;28:347-51
Daubert H (*see* Merle et al). 2000;28:109-15
de la Rosa M (*see* Vilar-Compte et al). 2000;28:14-20
Denton M, Mooney L, Kerr KG. Faucet aerators: a source of patient colonization with *Stenotrophomonas maltophilia.* 2000;28:323-4 (Letter)
Derelle J (*see* Vassal et al). 2000;28:347-51
Díez-de-Bonilla FJ (*see* Maupomé et al). 2000;28:21-4
Dolan M (*see* Hammond et al). 2000;28:340-6
Dolan MJ (*see* Paulson et al). 2000;28:323 (Letter reply)
Dominique S (*see* Vassal et al). 2000;28:347-51
Donovan S (*see* Hammond et al). 2000;28:340-6
Duncan SL. APIC State-of-the-Art Report: the implications of service animals in health care settings. 2000;28:170-80 (Special comm.)

E

Eagan J (*see* Rogers et al). 2000;28:378-80 (Brief rep.)
Ébacher M-F (*see* Godin et al). 2000;28:359-64
Edmond MB (*see* Wong et al). 2000;28:277-81

*February, 1-108; April, 109-206; June, 207-276; August, 277-326; October, 327-388; December, 389-484.

Embry FC (*see* APIC Home Care Membership Section et al). 2000;28:449-53 (Special communication)
Eng H-L (*see* Sheen-Chen et al). 2000;28:298-301
Erickson D (*see* Kaye et al). 2000;28:197-201 (Practice forum)
Escamilla-Cejudo A (*see* Gershon et al). 2000;28:211-21

F

# Subject index*

A

**Abstracts**
4th Decennial International Conference on Nosocomial and Healthcare-Associated Infections, CDC. 2000;28:76-108
**Academic medical centers**
Reengineering and infection control programs: commentary and a case study (Jackson, Massanari). 2000;28:44-50 (Special article)
***Acinetobacter baumanii***
*Acinetobacter baumanii*-associated arterial line infection (Minnaganti, Cunha). 2000;28:376-7 (Clinical case study)
**Administration, inhalant**
Microbiologic contamination study of nebulizers after aerosol therapy in patients with cystic fibrosis (Vassal et al). 2000;28:347-51
**Animals**
APIC State-of-the-Art Report: the implications of service animals in health care settings (Duncan). 2000;28:170-80 (Special comm.)
**Antibiotics**
Antibiotic use and cost indicators at a rural hospital: a pilot project (Mylotte, Weislo). 2000;28:415-20
Bacteriology and antimicrobial choice in hepatolithiasis (Sheen-Chen et al). 2000;28:298-301
Expanding the role of the infection control professional in the cost-effective use of antibiotics (Minooee, Rickman). 2000;28:57-65 (Practice forum)
Increasing antimicrobial resistance in gram-negative bacilli isolated from patients in intensive care units (Flournoy et al). 2000;28:244-50
Microbiologic survey of long-term care facilities (Smith et al). 2000;28:8-13
*Streptococcus pneumoniae:* bacteremia in an era of penicillin resistance (Castillo et al). 2000;28:239-43
**Anti-HIV agents**
HIV and diarrhea in the era of HAART: 1998 New York State hospitalizations (Anastasi, Capili). 2000;28:262-6
**Anti-infective agents, local**
Alcohol gel artifact (Pressley) (Letter) (Paulson et al) (Reply). 2000;28:322-3
Double-blind, randomized trial of scheduled use of a novel barrier cream and an oil-containing lotion for protecting the hands of health care workers (McCormick et al). 2000;28:302-10
Effect of hand sanitizer use on elementary school absenteeism (Hammond et al). 2000;28:340-6
Hand hygiene rates unaffected by installation of dispensers of a rapidly acting hand antiseptic (Muto et al). 2000;28:273-6 (Practice forum)
Microbicidal activity of MDI-P against *Candida albicans, Staphylococcus aureus, Pseudomonas aeruginosa,* and *Legionella pneumophila* (Baltch et al). 2000;28:251-7
**Association for Professionals in Infection Control and Epidemiology, Inc.**
4th Decennial International Conference on Nosocomial and Healthcare-Associated Infections: a challenge for change (Steele, Fawal). 2000;28:207-10 (Guest editorial)
APIC guideline for infection prevention and control in flexible endoscopy (Alvarado, Reichelderfer). 2000;28:138-55 (Special comm.)
APIC State-of-the-Art Report: the implications of service animals in health care settings (Duncan). 2000;28:170-80 (Special comm.)
APIC State-of-the-Art Report: the role of infection control during construction in health care facilities (Bartley et al). 2000;28:156-69 (Special comm.)
APIC commentary on "Healthcare Waste Management: A Template for Action" (Blumstein et al). 2000;28:e1.
Draft definitions for surveillance of infections in home health care (APIC Home Care Membership Section et al). 2000;28:449-53 (Special comm.)

*February, 1-108; April, 109-206; June, 207-276; August, 277-326; October, 327-388; December, 389-484.

B

**Beeper, personal**
Pathogenic bacteria on personal pagers (Namias et al). 2000;28:387-8 (Letter)
**Bioterrorism**
VA's role in bioterrorism preparations (Teeter, Koenig). 2000;28:321 (Letter)
**Bloodborne pathogens**
Health care workers' experience with postexposure management of bloodborne pathogen exposures: a pilot study (Gershon et al). 2000;28:421-8
**Brief reports**
Brief reports. 2000;28:51-3, 267-72, 311-13, 378-80

C

***Candida albicans***
Microbicidal activity of MDI-P against *Candida albicans, Staphylococcus aureus, Pseudomonas aeruginosa,* and *Legionella pneumophila* (Baltch et al). 2000;28:251-7
**Catheterization, indwelling**
Clinical and economic consequences of nosocomial catheter-related bacteriuria (Saint). 2000;28:68-75 (State of the science)
**Centers for Disease Control and Prevention**
4th Decennial International Conference on Nosocomial and Healthcare-Associated Infections. 2000;28:76-108
4th Decennial International Conference on Nosocomial and Healthcare-Associated Infections: a challenge for change (Steele, Fawal). 2000;28:207-10 (Guest editorial)
Association between implementation of CDC recommendations and ventilator-associated pneumonia at selected US hospitals (Manangan et al). 2000;28:222-7
Two-step tuberculin testing of passengers and crew on a commercial airplane (Wang). 2000;28:233-8
**Children**
Effect of hand sanitizer use on elementary school absenteeism (Hammond et al). 2000;28:340-6
The Internet: a practical example of the use of new technology in the assessment of vancomycin use in pediatrics (Sinkowitz-Cochran et al). 2000;28:459-64
Rotavirus outbreak on a pediatric oncology floor: possible association with toys (Rogers et al). 2000;28:378-80 (Brief rep.)
**Cholangitis**
Bacteriology and antimicrobial choice in hepatolithiasis (Sheen-Chen et al). 2000;28:298-301
**Clinical case studies**
2000;28:181-3, 376-7
**Competence, professional**
Competency standards in the context of infection control (Wincombe). 2000;28:228-32
**Computer keyboards**
Computer keyboards and faucet handles as reservoirs of nosocomial pathogens in the intensive care unit (Bures et al). 2000;28:465-71 (Practice forum)
**Coronary artery bypass**
Use of ICD-9-CM coding as a case-finding method for sternal wound infections after CABG procedures (Hebden). 2000;28:202-3 (Letter)
**Cystic fibrosis**
Infection control in cystic fibrosis: practical recommendations for the hospital, clinic, and social settings (Saiman et al). 2000;28:381-5 (Practice forum)
Microbiologic contamination study of nebulizers after aerosol therapy in patients with cystic fibrosis (Vassal et al). 2000;28:347-51

D

**Data interpretation, statistical**
Statistical process control geometric Q-chart for nosocomial infection surveillance (Quesenberry). 2000;28:314-20 (Practice forum)
**Dentist's practice patterns**
Survey on attitudes toward HIV-infected individuals and infection con-

trol practices among dentists in Mexico City (Maupomé et al). 2000;28:21-4

**Diarrhea**

HIV and diarrhea in the era of HAART: 1998 New York State hospitalizations (Anastasi, Capili). 2000;28:262-6

**Disease reservoirs**

Faucet aerators: a source of patient colonization with *Stenotrophomonas maltophilia* (Denton et al) (Letter) (Voss, Verweij) (Reply). 2000; 28:323-4 (Letter)

**Disinfectants**

Evaluation of a novel, rapid-acting sterilizing solution at room temperature (Hobson, Seal). 2000;28:370-5

Microbicidal activity of MDI-P against *Candida albicans, Staphylococcus aureus, Pseudomonas aeruginosa,* and *Legionella pneumophila* (Baltch et al). 2000;28:251-7

**Drug resistance, microbial**

Evaluation of a satellite education program on the prevention and control of antimicrobial resistance (Sinkowitz-Cochran, Jarvis). 2000; 28:267-8 (Brief rep.)

Failure of systemic antibiotics to eradicate gram-negative bacilli from the airway of mechanically ventilated very low–birth-weight infants (Cordero et al). 2000;28:286-90

Increasing antimicrobial resistance in gram-negative bacilli isolated from patients in intensive care units (Flournoy et al). 2000;28: 244-50

Nasal colonization by methicillin-resistant coagulase-negative *Staphylococcus* in community skilled nursing facility patients (Lee et al). 2000;28:269-72 (Brief rep.)

## E

**Education, continuing**

Competency standards in the context of infection control (Wincombe). 2000;28:228-32

Evaluation of a satellite education program on the prevention and control of antimicrobial resistance (Sinkowitz-Cochran, Jarvis). 2000; 28:267-8 (Brief rep.)

**Endoscopy**

APIC guideline for infection prevention and control in flexible endoscopy (Alvarado, Reichelderfer). 2000;28:138-55 (Special comm.)

Evaluation of a novel, rapid-acting sterilizing solution at room temperature (Hobson, Seal). 2000;28:370-5

***Enterobacter cloacae***

*Enterobacter cloacae* graft infection/bacteremia in a hemodialysis patient (Cunha et al). 2000;28:181-3 (Clinical case study)

*Enterobacter cloacae* sepsis outbreak in a newborn unit caused by contaminated total parenteral nutrition solution (Tresoldi et al). 2000;28:258-61

Enterobacterial repetitive intergenic consensus polymerase chain reaction typing of isolates of *Enterobacter cloacae* from an outbreak of infection in a neonatal intensive care unit (Peters et al). 2000; 28:123-9

**Enterocolitis, necrotizing**

A cluster of necrotizing enterocolitis in term infants undergoing open heart surgery (Fatica et al). 2000;28:130-2

**Environmental cleaning/disinfection**

Effect of a comprehensive infection control program on the incidence of infections in long-term care facilities (Makris et al). 2000;28:3-7

**Epidemiology**

Epidemiology of bacteriuria caused by vancomycin-resistant enterococci: a retrospective study (Wong et al). 2000;28:277-81

The fifth evolutionary era in infection control: interventional epidemiology (Garcia et al). 2000;28:30-43 (Special article)

Prospective surveillance for antibiotic-resistant organisms in patients with spinal cord injury admitted to an acute rehabilitation unit (Mylotte et al). 2000;28:291-7

When clusters occur: an illustrative example and a statistical dilemma (Sinkowitz-Cochran et al). 2000;28:325-6. Correction 2000;28:388 (Letter)

**Evidence-based medicine**

Australian Infection Control Association members' use of skills and resources that promote evidence-based infection control (Murphy, McLaws). 2000;28:116-22

**Exanthema**

Macular rash following influenza vaccine (Lohiya). 2000;28:386 (Letter)

## F

**Faucet handles**

Computer keyboards and faucet handles as reservoirs of nosocomial pathogens in the intensive care unit (Bures et al). 2000;28:465-71 (Practice forum)

## G

**Global perspectives**

Global perspectives. 2000;28:454-89

**Gloves, protective**

Latex gloves use and symptoms in health care workers 1 year after implementation restricting the use of powdered gloves (Trapé et al). 2000;28:352-8

Seminar promotes sound infection control practices in first-year residents (Gauthier). 2000;28:202-3

Using peer feedback to improve handwashing and glove usage among Thai health care workers (Moongtui et al). 2000;28:365-9

**Guest editorials**

Guest editorials. 2000;28:1-2, 207-10

## H

**Handwashing**

Alcohol gel artifact (Pressley) (Letter) (Paulson et al) (Reply). 2000;28: 322-3

Double-blind, randomized trial of scheduled use of a novel barrier cream and an oil-containing lotion for protecting the hands of health care workers (McCormick et al). 2000;28:302-10

Effect of a comprehensive infection control program on the incidence of infections in long-term care facilities (Makris et al). 2000;28:3-7

Effect of hand sanitizer use on elementary school absenteeism (Hammond et al). 2000;28:340-6

Hand hygiene rates unaffected by installation of dispensers of a rapidly acting hand antiseptic (Muto et al). 2000;28:273-6 (Practice forum)

Seminar promotes sound infection control practices in first-year residents (Gauthier). 2000;28:202-3

Using peer feedback to improve handwashing and glove usage among Thai health care workers (Moongtui et al). 2000;28:365-9

**Health care costs**

Antibiotic use and cost indicators at a rural hospital: a pilot project (Mylotte, Weislo). 2000;28:415-20

Clinical and economic consequences of nosocomial catheter-related bacteriuria (Saint). 2000;28:68-75 (State of the science)

Direct costs associated with a nosocomial outbreak of *Salmonella* infection: an ounce of prevention is worth a pound of cure (Spearing et al). 2000;28:54-7 (Practice forum)

Effect of a comprehensive program to reduce infectious waste (Zafar, Butler). 2000;28:51-3 (Brief rep.)

Expanding the role of the infection control professional in the cost-effective use of antibiotics (Minooee, Rickman). 2000;28:57-65 (Practice forum)

Managing waste via source reduction (Belkin). 2000;28:324-5 (Letter)

Reengineering and infection control programs: commentary and a case study (Jackson, Massanari). 2000;28:44-50 (Special article)

Watching the bottom line: enhancing the role and impact of infection control in a managed care environment (Rhinehart). 2000;28:25-9 (Special article)

"Where's the Science?" (Hedrick). 2000;28:66-7

**Health facilities**

APIC State-of-the-Art Report: the implications of service animals in health care settings (Duncan). 2000;28:170-80 (Special comm.)

APIC State-of-the-Art Report: the role of infection control during construction in health care facilities (Bartley et al). 2000;28:156-69 (Special comm.)

Infection control in cystic fibrosis: practical recommendations for the

hospital, clinic, and social settings (Saiman et al). 2000;28:381-5 (Practice forum)
Triclosan: a review of effectiveness and safety in health care settings (Jones et al). 2000;28:184-96 (State of the science)
When clusters occur: an illustrative example and a statistical dilemma (Sinkowitz-Cochran et al). 2000;28:325-6. Correction 2000;28:388 (Letter)

**Health personnel**
Determinants of nurses' adherence to Universal Precautions for venipunctures (Godin et al). 2000;28:359-64
Double-blind, randomized trial of scheduled use of a novel barrier cream and an oil-containing lotion for protecting the hands of health care workers (McCormick et al). 2000;28:302-10
Hand hygiene rates unaffected by installation of dispensers of a rapidly acting hand antiseptic (Muto et al). 2000;28:273-6 (Practice forum)
Health care workers' experience with postexposure management of bloodborne pathogen exposures: a pilot study (Gershon et al). 2000;28:421-8
Latex gloves use and symptoms in health care workers 1 year after implementation restricting the use of powdered gloves (Trapé et al). 2000;28:352-8
Pathogenic bacteria on personal pagers (Namias et al). 2000;28:387-8 (Letter)
Re: patient hazards of needleless systems (Shields). 2000;28:321-2 (Letter)
Using peer feedback to improve handwashing and glove usage among Thai health care workers (Moongtui et al). 2000;28:365-9

**Heart disease, congenital**
A cluster of necrotizing enterocolitis in term infants undergoing open heart surgery (Fatica et al). 2000;28:130-2

**Hemodialysis**
*Enterobacter cloacae* graft infection/bacteremia in a hemodialysis patient (Cunha et al). 2000;28:181-3 (Clinical case study)

**Hepatolithiasis**
Bacteriology and antimicrobial choice in hepatolithiasis (Sheen-Chen et al). 2000;28:298-301

**HIV**
Health care workers' experience with postexposure management of bloodborne pathogen exposures: a pilot study (Gershon et al). 2000;28:421-8
HIV and diarrhea in the era of HAART: 1998 New York State hospitalizations (Anastasi, Capili). 2000;28:262-6
Survey on attitudes toward HIV-infected individuals and infection control practices among dentists in Mexico City (Maupomé et al). 2000;28:21-4

**Hospitals**
Assessment of prolonged hospital stay attributable to surgical site infections using appropriateness evaluation protocol (Merle et al). 2000;28:109-15
Effect of a comprehensive program to reduce infectious waste (Zafar, Butler). 2000;28:51-3 (Brief rep.)
Environmental protection in hospital infection control (Daschner) (Letter) (Garcia, Barnard) (Reply). 2000;28:386-7
Hospital safety climate and its relationship with safe work practices and workplace exposure incidents (Gershon et al). 2000;28:211-21
Improved tuberculosis infection control practices in Maryland acute care hospitals (Fuss et al). 2000;28:133-7
Infection control in cystic fibrosis: practical recommendations for the hospital, clinic, and social settings (Saiman et al). 2000;28:381-5 (Practice forum)
Managing waste via source reduction (Belkin). 2000;28:324-5 (Letter)
Multicenter surveillance study for nosocomial infections in major hospitals in Korea (Kim et al). 2000;28:454-8 (Global perspectives)
Performance of US hospitals on recommended screening and immunization practices for pregnant and postpartum women (Bath et al). 2000;28:327-32
Persistent contamination of fabric-covered furniture by vancomycin-resistant enterococci: implications for upholstery selection in hospitals (Noskin et al). 2000;28:311-3 (Brief rep.)
Pilot testing standardized surveillance: Hospital Infection Standardized Surveillance (McLaws et al). 2000;28:401-5
Risk factors for acquisition of vancomycin-resistant enterococci among patients on a renal ward during a community hospital outbreak (Beltrami). 2000;28:282-5
Rotavirus outbreak on a pediatric oncology floor: possible association with toys (Rogers et al). 2000;28:378-80 (Brief rep.)
Surgical site infections at the National Cancer Institute in Mexico: a case-control study (Vilar-Compte et al). 2000;28:14-20

**Hospitals, rural**
Antibiotic use and cost indicators at a rural hospital: a pilot project (Mylotte, Weislo). 2000;28:415-20

## I

**ICD-9-CM coding**
Use of ICD-9-CM coding as a case-finding method for sternal wound infections after CABG procedures (Hebden). 2000;28:202-3 (Letter)

**Immunization**
Macular rash following influenza vaccine (Lohiya). 2000;28:386 (Letter)
Performance of US hospitals on recommended screening and immunization practices for pregnant and postpartum women (Bath et al). 2000;28:327-32

**Infection control**
4th Decennial International Conference on Nosocomial and Healthcare-Associated Infections: a challenge for change (Steele, Fawal). 2000;28:207-10 (Guest editorial)
APIC guideline for infection prevention and control in flexible endoscopy (Alvarado, Reichelderfer). 2000;28:138-55 (Special comm.)
APIC State-of-the-Art Report: the role of infection control during construction in health care facilities (Bartley et al). 2000;28:156-69 (Special comm.)
Australian Infection Control Association members' use of skills and resources that promote evidence-based infection control (Murphy, McLaws). 2000;28:116-22
Direct costs associated with a nosocomial outbreak of *Salmonella* infection: an ounce of prevention is worth a pound of cure (Spearing et al). 2000;28:54-7 (Practice forum)
Effect of a comprehensive infection control program on the incidence of infections in long-term care facilities (Makris et al). 2000;28:3-7
Environmental protection in hospital infection control (Daschner) (Letter) (Garcia, Barnard) (Reply). 2000;28:386-7
The fifth evolutionary era in infection control: interventional epidemiology (Garcia et al). 2000;28:30-43 (Special article)
Improved tuberculosis infection control practices in Maryland acute care hospitals (Fuss et al). 2000;28:133-7
Infection surveillance, prevention, and control in the new millennium: a test of survival (Rhinehart, Garcia). 2000;28:1-2 (Guest editorial)
Microbiologic survey of long-term care facilities (Smith et al). 2000; 28:8-13
Nasal colonization by methicillin-resistant coagulase-negative *Staphylococcus* in community skilled nursing facility patients (Lee et al). 2000;28:269-72 (Brief rep.)
Practical risk-adjusted quality control charts for infection control (Gustafson). 2000;28:406-14
Reengineering and infection control programs: commentary and a case study (Jackson, Massanari). 2000;28:44-50 (Special article)
Statistical process control geometric Q-chart for nosocomial infection surveillance (Quesenberry). 2000;28:314-20 (Practice forum)
Status of infection surveillance and control programs in the United States, 1992-1996 (Nguyên et al). 2000;28:392-400
Watching the bottom line: enhancing the role and impact of infection control in a managed care environment (Rhinehart). 2000;28:25-9 (Special article)
"Where's the Science?" (Hedrick). 2000;28:66-7

**Infection control, dental**
Survey on attitudes toward HIV-infected individuals and infection control practices among dentists in Mexico City (Maupomé et al). 2000;28:21-4

**Infection control practitioners**
Competency standards in the context of infection control (Wincombe). 2000;28:228-32
Expanding the role of the infection control professional in the cost-effective use of antibiotics (Minooee, Rickman). 2000;28:57-65 (Practice forum)
The fifth evolutionary era in infection control: interventional epidemiology (Garcia et al). 2000;28:30-43 (Special article)
Triclosan: a review of effectiveness and safety in health care settings (Jones et al). 2000;28:184-96 (State of the science)
Turning information into knowledge to prevent health care–associated infections and other adverse events: the electronic ICP as an agent of change (Olmsted). 2000;28:389-91 (Guest editorial)
**Influenza vaccine**
Macular rash following influenza vaccine (Lohiya). 2000;28:386 (Letter)
**Information management**
Pilot testing standardized surveillance: Hospital Infection Standardized Surveillance (McLaws et al). 2000;28:401-5
Practical risk-adjusted quality control charts for infection control (Gustafson). 2000;28:406-14
Turning information into knowledge to prevent health care–associated infections and other adverse events: the electronic ICP as an agent of change (Olmsted). 2000;28:389-91 (Guest editorial)
**Infusions, intravenous**
*Acinetobacter baumanii*–associated arterial line infection (Minnaganti, Cunha). 2000;28:376-7 (Clinical case study)
Re: patient hazards of needleless systems (Shields). 2000;28:321-2 (Letter)
**Intensive care, neonatal**
*Enterobacter cloacae* sepsis outbreak in a newborn unit caused by contaminated total parenteral nutrition solution (Tresoldi et al). 2000;28:258-61
Enterobacterial repetitive intergenic consensus polymerase chain reaction typing of isolates of *Enterobacter cloacae* from an outbreak of infection in a neonatal intensive care unit (Peters et al). 2000;28:123-9
**Intensive care units**
Computer keyboards and faucet handles as reservoirs of nosocomial pathogens in the intensive care unit (Bures et al). 2000;28:466-72 (Practice forum)
Critical care bug team: a multidisciplinary team approach to reducing ventilator-associated pneumonia (Kaye et al). 2000;28:197-201 (Practice forum)
Increasing antimicrobial resistance in gram-negative bacilli isolated from patients in intensive care units (Flournoy et al). 2000;28:244-50
**Interior design and furnishings**
Persistent contamination of fabric-covered furniture by vancomycin-resistant enterococci: implications for upholstery selection in hospitals (Noskin et al). 2000;28:311-13 (Brief rep.)
**Internet**
The Internet: a practical example of the use of new technology in the assessment of vancomycin use in pediatrics (Sinkowitz-Cochran et al). 2000;28:459-64 (Practice forum)
Turning information into knowledge to prevent health care–associated infections and other adverse events: the electronic ICP as an agent of change (Olmsted). 2000;28:389-91 (Guest editorial)
**Internship and residency**
Seminar promotes sound infection control practices in first-year residents (Gauthier). 2000;28:202 (Letter)

**K**

**Korea**
Multicenter surveillance study for nosocomial infections in major hospitals in Korea (Kim et al). 2000;28:454-8 (Global perspectives)

**L**

**Latex**
Latex gloves use and symptoms in health care workers 1 year after implementation restricting the use of powdered gloves (Trapé et al). 2000;28:352-8
***Legionella pneumophila***
Microbicidal activity of MDI-P against *Candida albicans, Staphylococcus aureus, Pseudomonas aeruginosa,* and *Legionella pneumophila* (Baltch et al). 2000;28:251-7
**Length of stay**
Assessment of prolonged hospital stay attributable to surgical site infections using appropriateness evaluation protocol (Merle et al). 2000;28:109-15
**Letters**
Letters. 2000;28:202-3, 321-6, 386-8
**Long-term care**
Effect of a comprehensive infection control program on the incidence of infections in long-term care facilities (Makris et al). 2000;28:37
Microbiologic survey of long-term care facilities (Smith et al). 2000;28:8-13

**M**

**Maintenance and engineering, hospital**
Faucet aerators: a source of patient colonization with *Stenotrophomonas maltophilia* (Denton et al) (Letter) (Voss, Verweij) (Reply). 2000;28:323-4 (Letter)
**Managed care programs**
Watching the bottom line: enhancing the role and impact of infection control in a managed care environment (Rhinehart). 2000;28:25-9 (Special article)
**Medical waste**
Effect of a comprehensive program to reduce infectious waste (Zafar and Butler). 2000;28:51-3 (Brief rep.)
Managing waste via source reduction (Belkin). 2000;28:324-5 (Letter)

**N**

**National Cancer Institute, Mexico**
Surgical site infections at the National Cancer Institute in Mexico: a case-control study (Vilar-Compte et al). 2000;28:14-20
**National Center for Infectious Diseases**
National Center for Infectious Diseases. National Nosocomial Infections Surveillance (NNIS) System Report, Data Summary from January 1992-April 2000, Issued June 2000. 2000;28:429-48 (Special article)
**National Foundation for Infectious Diseases**
4th Decennial International Conference on Nosocomial and Healthcare-Associated Infections: a challenge for change (Steele, Fawal). 2000;28:207-10 (Guest editorial)
**Needlestick injuries**
Determinants of nurses' adherence to Universal Precautions for venipunctures (Godin et al). 2000;28:359-64
Health care workers' experience with postexposure management of bloodborne pathogen exposures: a pilot study (Gershon et al). 2000;28:421-8
**Neonates**
A cluster of necrotizing enterocolitis in term infants undergoing open heart surgery (Fatica et al). 2000;28:130-2
Enterobacterial repetitive intergenic consensus polymerase chain reaction typing of isolates of *Enterobacter cloacae* from an outbreak of infection in a neonatal intensive care unit (Peters et al). 2000;28:123-9
Failure of systemic antibiotics to eradicate gram-negative bacilli from the airway of mechanically ventilated very low–birth-weight infants (Cordero et al). 2000;28:286-90
Ventilator-associated pneumonia in very low–birth-weight infants at the time of nosocomial bloodstream infection and during airway colonization with *Pseudomonas aeruginosa* (Cordero et al). 2000;28:333-9
**Nursing homes**
Microbiologic survey of long-term care facilities (Smith et al). 2000;28:8-13

**P**

**Pager, personal**
Pathogenic bacteria on personal pagers (Namias et al). 2000;28:387-8 (Letter)
**Parenteral nutrition, total**
*Enterobacter cloacae* sepsis outbreak in a newborn unit caused by con-

taminated total parenteral nutrition solution (Tresoldi et al). 2000; 28:258-61

**Penicillin resistance**

*Streptococcus pneumoniae:* bacteremia in an era of penicillin resistance (Castillo et al). 2000;28:239-43

**Pneumonia**

Association between implementation of CDC recommendations and ventilator-associated pneumonia at selected US hospitals (Manangan et al). 2000;28:222-7

Critical care bug team: a multidisciplinary team approach to reducing ventilator-associated pneumonia (Kaye et al). 2000;28:197-201 (Practice forum)

Ventilator-associated pneumonia in very low–birth-weight infants at the time of nosocomial bloodstream infection and during airway colonization with *Pseudomonas aeruginosa* (Cordero et al). 2000;28: 333-9

**Polymerase chain reaction**

Enterobacterial repetitive intergenic consensus polymerase chain reaction typing of isolates of *Enterobacter cloacae* from an outbreak of infection in a neonatal intensive care unit (Peters et al). 2000;28: 123-9

**Practice forum**

Practice forum. 2000;28:54-65, 197-201, 273-6, 314-20, 381-5

**Pregnancy**

Performance of US hospitals on recommended screening and immunization practices for pregnant and postpartum women (Bath et al). 2000;28:327-32

**Pseudomonas aeruginosa**

Microbicidal activity of MDI-P against *Candida albicans, Staphylococcus aureus, Pseudomonas aeruginosa,* and *Legionella pneumophila* (Baltch et al). 2000;28:251-7

Microbiologic contamination study of nebulizers after aerosol therapy in patients with cystic fibrosis (Vassal et al). 2000;28:347-51

Ventilator-associated pneumonia in very low–birth-weight infants at the time of nosocomial bloodstream infection and during airway colonization with *Pseudomonas aeruginosa* (Cordero et al). 2000;28: 333-9

**Puerperium**

Performance of US hospitals on recommended screening and immunization practices for pregnant and postpartum women (Bath et al). 2000;28:327-32

**Q**

**Quality control**

Practical risk-adjusted quality control charts for infection control (Gustafson). 2000;28:406-14

**R**

**Reaction and response**

Reaction and response. 2000;28:204-6, 472-4

**Rehabilitation centers**

Prospective surveillance for antibiotic-resistant organisms in patients with spinal cord injury admitted to an acute rehabilitation unit (Mylotte et al). 2000;28:291-7

**Renal failure**

Risk factors for acquisition of vancomycin-resistant enterococci among patients on a renal ward during a community hospital outbreak (Beltrami). 2000;28:282-5

**Respiratory protective devices**

"Where's the Science?" (Hedrick). 2000;28:66-7

**Rotavirus infections**

Rotavirus outbreak on a pediatric oncology floor: possible association with toys (Rogers et al). 2000;28:378-80 (Brief rep.)

**S**

**Safety**

Hospital safety climate and its relationship with safe work practices and workplace exposure incidents (Gershon et al). 2000;28: 211-21

***Salmonella***

Direct costs associated with a nosocomial outbreak of *Salmonella* infection: an ounce of prevention is worth a pound of cure (Spearing et al). 2000;28:54-7 (Practice forum)

**Schools**

Effect of hand sanitizer use on elementary school absenteeism (Hammond et al). 2000;28:340-6

**Skilled nursing facilities**

Nasal colonization by methicillin-resistant coagulase-negative *Staphylococcus* in community skilled nursing facility patients (Lee et al). 2000;28:269-72 (Brief rep.)

Society for Healthcare Epidemiology of America, Inc.
4th Decennial International Conference on Nosocomial and Healthcare-Associated Infections: a challenge for change (Steel, Fawal). 2000;28:207-10 (Guest editorial)

**Special articles**

Special articles. 2000;28:25-50, 429-48

**Special communications**

Special communications. 2000;28:138-80, 449-53

**Spinal cord injury**

Prospective surveillance for antibiotic-resistant organisms in patients with spinal cord injury admitted to an acute rehabilitation unit (Mylotte et al). 2000;28:291-7

***Staphylococcus aureus***

Microbicidal activity of MDI-P against *Candida albicans, Staphylococcus aureus, Pseudomonas aeruginosa,* and *Legionella pneumophila* (Baltch et al). 2000;28:251-7

**State of the science**

State of the science. 2000;28:68-75, 184-96

**Statistics**

Statistical process control geometric Q-chart for nosocomial infection surveillance (Quesenberry). 2000;28:314-20 (Practice forum)

When clusters occur: an illustrative example and a statistical dilemma (Sinkowitz-Cochran et al). 2000;28:325-6. Correction 2000; 28:388 (Letter)

***Stenotrophomonas maltophilia***

Faucet aerators: a source of patient colonization with *Stenotrophomonas maltophilia* (Denton et al) (Letter) (Voss, Verweij) (Reply). 2000; 28:323-4

**Sterilization**

Evaluation of a novel, rapid-acting sterilizing solution at room temperature (Hobson, Seal). 2000;28:370-5

***Streptococcus pneumoniae***

*Streptococcus pneumoniae:* bacteremia in an era of penicillin resistance (Castillo et al). 2000;28:239-43

**Surgical wound infections**

Assessment of prolonged hospital stay attributable to surgical site infections using appropriateness evaluation protocol (Merle et al). 2000;28:109-15

Surgical site infections at the National Cancer Institute in Mexico: a case-control study (Vilar-Compte et al). 2000;28:14-20

Use of ICD-9-CM coding as a case-finding method for sternal wound infections after CABG procedures (Hebden). 2000;28:202-3 (Letter)

**Surveillance**

Draft definitions for surveillance of infections in home health care (APIC Home Care Membership Section et al). 2000;28:449-53 (Special comm.)

Multicenter surveillance study for nosocomial infections in major hospitals in Korea (Kim et al). 2000;28:454-8 (Global perspectives)

National Center for Infectious Diseases. National Nosocomial Infections Surveillance (NNIS) System Report, Data Summary from January 1992-April 2000, Issued June 2000. 2000;28:429-48 (Special article)

Pilot testing standardized surveillance: Hospital Infection Standardized Surveillance (McLaws et al). 2000;28:401-5

Status of infection surveillance and control programs in the United States, 1992-1996 (Nguyên et al). 2000;28:392-400

**T**

**Triclosan**

Triclosan: a review of effectiveness and safety in health care settings (Jones et al). 2000;28:184-96 (State of the science)

**Tuberculin test**
Two-step tuberculin testing of passengers and crew on a commercial airplane (Wang). 2000;28:233-8
**Tuberculosis**
Improved tuberculosis infection control practices in Maryland acute care hospitals (Fuss et al). 2000;28:133-7
Two-step tuberculin testing of passengers and crew on a commercial airplane (Wang). 2000;28:233-8

U

**United States**
Status of infection surveillance and control programs in the United States, 1992-1996 (Nguyên et al). 2000;28:392-400
